

The Seashore Code

Have fun exploring the wonderful marine plants and animals that live at the coast, but remember to stay safe and protect wildlife by following the Seashore Code:

- 📍 If you think you might need help, take an adult with you
- 📍 Be careful...on the rocks, as they can be slippery
...on the shore, check the tides and stay away from cliffs
- 📍 Stay out of the rock pools, they are someone's home
- 📍 Think before you touch...be gentle
...it might bite, sting or nip
...don't keep it out of water for too long
- 📍 Don't take anything home with you, except for your litter - an empty shell will make a great new home for a hermit crab
- 📍 Watch out for birds and seals so that you don't disturb them
- 📍 Leave anything that is firmly attached to the rocks where it is
